CENTERLINE® ELITE™ ALUMINUM VOLLEYBALL

Centerline Elite aluminum are designed to provide the bowstring tight net tension desired by top programs. The lifetime warranty, precision machined 26:1 worm gear winch and 2" tensioning strap eliminate backlash found with inferior winch systems. The fold-away tensioning handle is safe, convenient and never gets lost. Totally hidden side dowels and bottom net rope are tensioned with Bison's specially designed rope ratchet tensioners that are easy to tighten and release.

Net height adjustment is made precisely and quickly with our unique Auto Track spring assisted telescoping piston design. Just glide the inner tube up or down and turn knob or insert the pin to lock in place. Centerline Elite systems are infinitely height variable from 72" to 98" and have easy-to-read height indicator scales. The 3" standards and winch are covered by a lifetime limited warranty.

"Steel is great in cars or buildings, but when the University of Arizona volleyball team practices in the Wildcats basketball arena, we got tired of hauling the heavy systems in and out. I'd never considered aluminum systems because of negative comments from other coaches. I am now a firm believer that weight alone is not the measure of a quality volleyball system. While Centerline Elite aluminum standards won't make our team better, it has made our equipment managers happier."
